PATIENT ENGAGEMENT SERVICES  
CNS EXPERTISE

**CASE STUDY: MILD-TO-MODERATE ALZHEIMER'S DISEASE  
RESCUE ENGAGEMENT PROGRAM**

**STUDY DETAILS**

- > Rescue program
- > 22-month campaign
- > 176 study sites; 2,285 patients
- > Existing attrition rate of 14.7 patients per month

**IMPERIAL OBJECTIVES**

- > Reduce monthly attrition rate
- > Engage patients and caregivers regularly throughout the study
- > Provide messaging and support materials in multiple formats for patients and caregivers

**CAMPAIGN**

- > Study branding for awareness
- > Patient education and support packages
- > Caregiver education and support packages
- > Patient/caregiver newsletters
- > Direct mail and email messages

**RESULTS**

- > Pre-Imperial involvement: attrition rate of 14.7 patients per month
- > Imperial involvement: attrition rate of 5.7 patients per month

**MILD-TO-MODERATE ALZHEIMER'S DISEASE**
